

Angel David Beltran Garcia

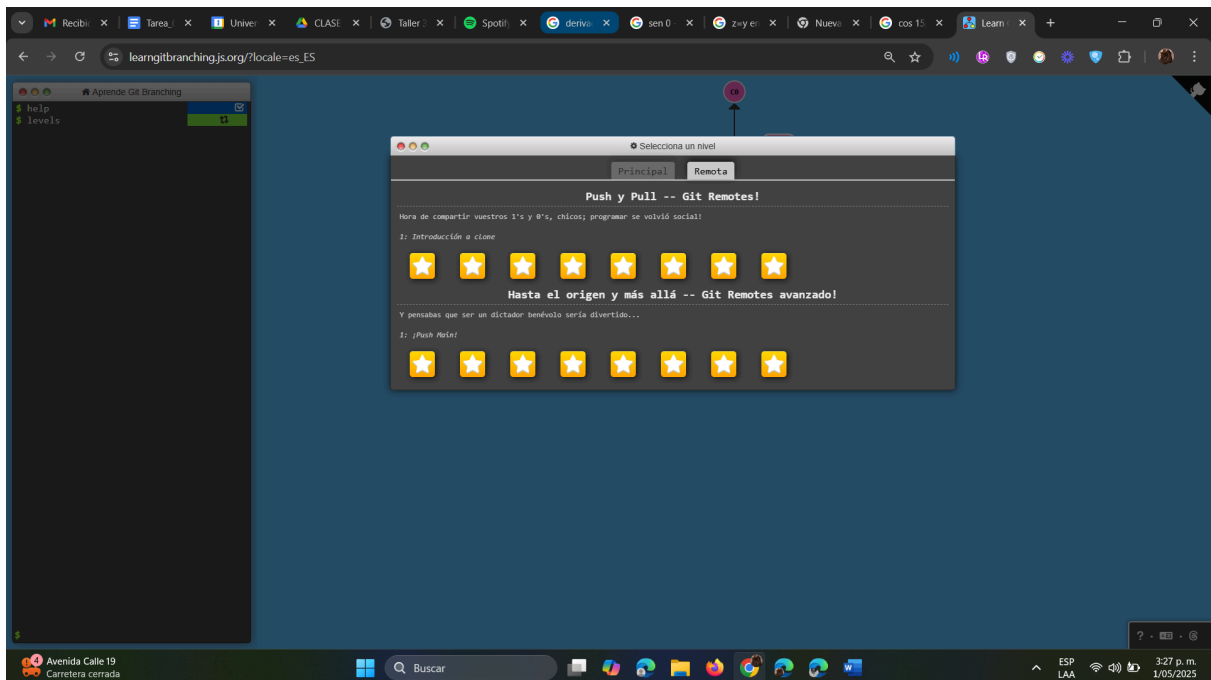

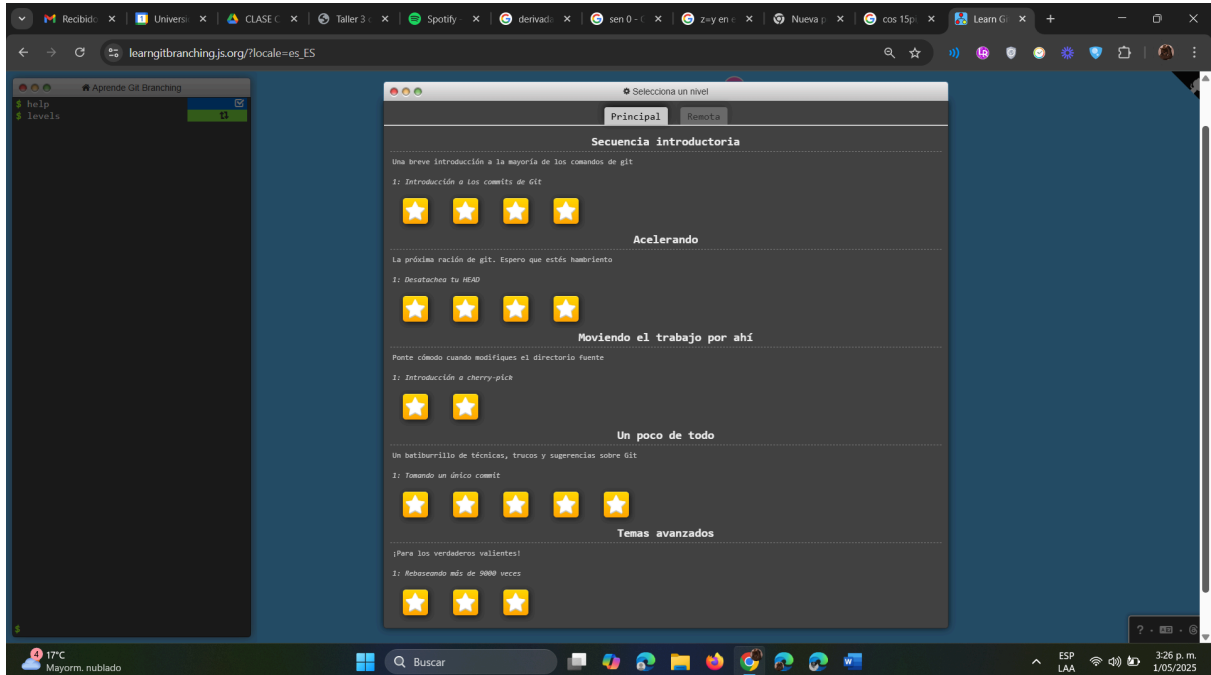

Cristofer Damian Ordonez Osa

The screenshot shows the 'learn-git-branching.js.org' website. On the left, a sidebar titled 'Aprende Git Branching' lists levels: 'Level: Parámetros de pull' (selected), 'Level: remoteAdvanced8', and 'Level: hint'. Below the list, a hint box says: 'Recuerda que puedes crear nuevas ramas locales usando los parámetros de fetch/pull'. A list of commands is shown: '\$ delay 2000', '\$ show goal', '\$ git pull origin bar:foo', '\$ undo', '\$ git pull origin C3:foo', '\$ git pull origin C2:side', and '\$ levels'. The main content area displays a 'Selección un nivel' (Select a level) dialog with tabs for 'Principal' and 'Remota'. The 'Principal' tab is active, showing a 'Secuencia introductoria' (Introductory Sequence) with five levels: 'Una breve introducción a la mayoría de los comandos de git', 'Acelerando', 'Moviendo el trabajo por ahí', 'Un poco de todo', and 'Temas avanzados'. Each level has a progress bar with stars. The background features a Git branching model diagram with branches C1, C2, C3, and C4, and a 'Main' branch. The bottom status bar shows '18°C Mayorm. nublado' and the time '3:16 p.m. 1/05/2025'.

The screenshot shows the 'learn-git-branching.js.org' website. On the left, the sidebar is the same as in the first screenshot. The main content area displays the 'Push y Pull -- Git Remotes!' level. The 'Selección un nivel' dialog is open, showing the 'Principal' tab with the title 'Push y Pull -- Git Remotes!'. The text inside the dialog says: 'Hora de compartir vuestros 1's y 0's, chicos; programar se volvió social!', '6: git push', 'Hasta el origen y más allá -- Git Remotes avanzado!', 'Y pensabas que ser un dictador benévolo sería divertido...', and '1: ¡Push Main!'. The progress bar for this level is shown with stars. The background features the same Git branching model diagram. The bottom status bar shows '18°C Mayorm. nublado' and the time '3:16 p.m. 1/05/2025'.
